

Product Name :

Blain Air Permeability Apparatus

Product Code :

Cement0010

**Description :**

Blain Air Permeability Apparatus

Technical Specification :**Blain Air Permeability Apparatus**

Blain Air Permeability Apparatus from Civil Mechanical Laboratory India

The Blaine air permeability apparatus is used to determine the fineness of Portland cement in terms of the specific surface expressed as total surface area in square centimeters per gram of cement. Blain Air Permeability Apparatus for Civil Engineering from Laboratory Equipment Manufacturers India - The Blaine apparatus draws a defined volume of air through a prepared bed of cement of defined porosity.

The apparatus comprises one each of Brass or stainless steel permeability cell 12.5mm, 'U' tube manometer with stop cock mounted on a laminated wooden stand, perforated metal
