

**Product Name :**  
Linear Motion Test Apparatus**Product Code :**  
Technical0001**Description :**

Linear Motion Test Apparatus

**Technical Specification :**

Linear Motion Test Apparatus We have a leading organization in offering a supreme quality assortment of **Linear Motion Test Apparatus** to our customers. The offered products are tested in terms of quality to deliver only defect less range from our side. These products have plunger carriage, friction block, 3 tension springs, Device for actuation of carriages and friction block and deflection pulley.

**Features:**

- Sturdy construction
- Hassle-free performance
- Robust design

**Bench**

**top for investigations on motion, plastic and elastic impact, momentum, spring-mass oscillation and on friction System to consist of:**

- Inclinal track with stoppers at both sides
- Rolling carriage
- Plunger carriage
- Friction block
- 3 tension springs
- Device for actuation of carriages and friction block
- Deflection pulley
- 3 sets of weights
- Cord
- Moveable stopper for track
- Additional weights for carriages including measuring tape: length: 2000mm, resolution: 1mm
- 3 buffers with rubber buffer heads for covering of permanent magnets
