

Product Name :

Three Phase Power Quality Meter with display and long-term memory

Product Code :

NEC-18-06-18-0060

Description :

Three Phase Power Quality Meter with display and long-term memory

Technical Specification :

Minimum Technical specifications:

- Three-phase measurement of current and voltage 3x400V/5A
- Measurement of phase voltages, line-to-line voltages and currents
- Determination of the apparent, active and reactive power
- Determination of active, reactive and apparent work

- Determination of the frequency and distortion factors for current and voltage \ddot{I} ,
Detection of mains harmonic oscillations and neutral conductor current

- Pulse measurement

- Peak and mean value detection

Large-scale, contrast-rich graphic display with background illumination

- Display in tables, diagrams and vector diagrams
- Digital input and output for free configuration including functions

\ddot{I} , Ethernet interface

Demonstration measuring instrument for network operation

\ddot{I} , Operating voltage: 230V, 50 Hz
