

**Product Name :**  
Training Model- Electric Motor

**Product Code :**  
NEL-22-09-18-0060

**Description :**

Training Model- Electric Motor

**Technical Specification :**

Parameters: DC Motor experiments: (DC generator, DC shunt motor, DC motor starts, DC motor speed regulation characteristics etc.), Single phase transformer experiments :(Single phase transformer variable ratio K, Single phase transformer no-load experiments, Single phase transformer short circuit experiments, single phase transformer load experiment), Three phase transformer experiment (Three phase transformer winding polarity measurement, three phase transformer coupling group measurement) , Asynchronous motor experiment : ( Three phase winding Asynchronous motor stator resistance test, three phase Asynchronous motor no-load experiment, three phase Asynchronous motor short circuit experiment, calculate three phase Asynchronous parameter, mechanical properties of three phase asynchronous motor in various operating conduction).

Three-phase, five-wire 380V $\pm$ 10% 50Hz/60Hz, < 1.5KVA AC 380V, Adjustable power safety terminal output/ DC 220V, safety terminal isolation output/ 220V, safety terminal isolation output.
