Vibrating Table**Product Code :**
Concrete0009**Description :**

Vibrating Table

Technical Specification :**Vibrating Table**

Vibrating Table from Civil Mechanical Laboratory India

Vibrating Table The Vibrating table is entirely constructed of thick steel. The table top is made of thick mild steel plate and has stops along its edges to prevent moulds from walking off the table during operation. A cross arm adjustable on a vertical rod at the centre of the table is provided to hold the moulds while operating the table. Vibrating Table for Civil

Engineering from Laboratory Equipment Manufacturers India - The variable pitch pulley arrangement permits the variation of frequency between maximum of 3600 vibrations down to 2600 vibrations per minute. A speed regulation handle is provided for increasing or decreasing the frequency. The vibrator is mounted on cushioned steel vibrating deck. A switch is provided for starting the motor. Operation on 440 V, three phase, A.C. supply
